The Joint University of Maryland- University of Michigan Program in Survey Methodology

Summary of Prerequisite Courses, Master of Science in Survey Methodology

Desired Area of Concentration (Check One)

Name _____ **____ Statistical Science** **____ Social Science**

List in chronological order the courses that you believe qualify for the prerequisite for your desired area of concentration in the MS program.

- For statistical area, these are three courses in calculus, one in linear algebra, and one course in statistics.
- For the social science area, theses are two quantitative courses, at least one of which must be a statistics course, and at least two undergraduate courses in the social sciences.

When you believe you have taken multiple courses fulfilling the prerequisites, list up to eight such courses, choosing those best suited for the given area of concentration.

School	Term	Course Number and Name	Text *	Credit Hours	Grade
